

INFRASTRUCTURE

The provisioning, stewardship, planning and maintenance of infrastructure (not just the courts, fields and other surfaces on which participation opportunities take place) impacts many areas of operation for community sporting organisations, including Netball Associations and Clubs, both by the organisations' own members and external stakeholders (individuals and other organisations).

Netball Queensland

Netball Australia

[National Facilities Policy - March 2016 \(Version 2\)](#)

[Court Craft](#) is a preferred supplier of Netball Queensland. From within the [Court Craft website](#):-

Court Craft has designed, constructed and surfaced hundreds of Netball Courts for a variety of regional and metro associations.

We supply strongly engineered solutions for all our projects at affordable prices.

Court Craft is happy to do a free consultation with your association for planning purposes.

Representatives of Court Craft presented at Netball Queensland's Leaders Conference Lite in October 2022, to see their presentation, [click here](#).
